

verbos reflexivos

- We use reflexive verbs to indicate the person (animal or thing) doing an action and the person/thing receiving the action are the same. When I do something myself, **to myself**, by myself, I use a reflexive verb.
- Reflexive verbs may look similar to regular verbs but they all end with **-se**.
- That **-se** at the end of the verb is a **Reflexive Pronoun** and it will change depending on who is doing the action.
- When we conjugate a reflexive verb by itself the reflexive pronoun changes location.

Reflexive Pronouns			
yo	me	nosotros	nos
tú	te	vosotros	os
él, ella, usted	se	ellos, ellas, ustedes	se

3 Steps conjugating a reflexive verbs:

(Example: "I take a bath" in Spanish)

1. Take the "-se" off of the end of the verb.

2. Bring it to the **front of the verb** and change it to the correct reflexive pronoun to match the subject.
(me, te, se, nos, se)

3. Conjugate* the verb to fit the subject.

Yo bañarse = Yo bañar -se

Yo me bañar
(that -se, changed to me)

Yo me baño

This means:
I take a bath [myself]

Regular verb conjugation

- A conjugation is a change in the way we write and say a verb to match the person or animal who does the action.
- To conjugate a regular verb you must **replace** the original endings (-ar, -er, -ir) with a new ending based on the subject (person doing the action).
- In Spanish level 2 you are expected to know these endings by memory. Please memorize these endings.

Regular verbs endings
